- 8. Sanctions 8
- 9. Import, Export, and Backup 9
- 10. User Management and Audit..... 9
- 11. Working With Larger Data Sets..... 10

1. Purpose and Roles

MyHR is an offline desktop HR system for employee records, organization hierarchy, promotion races, commendations, sanctions, salary increments, imports, exports, backups, and audit review.

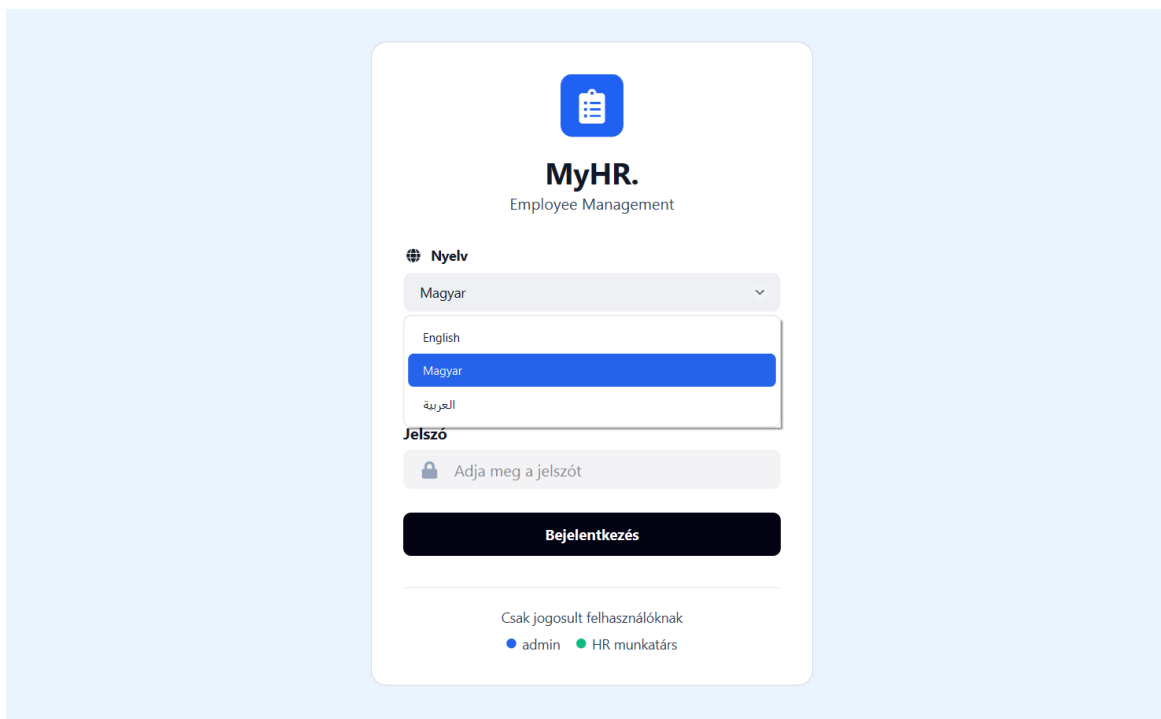

Role	Main Access
Administrator	All pages, Settings, salary ranges, promotion rules, annual increments, user management, export, backup, password changes.
HR Officer	Dashboard, Employees, Hierarchy, Promotions, Commendations, Sanctions, Audit Log, and Import Data. Settings is admin-only.

2. Log In, Log Out, and Switch Language

1. Open MyHR.
2. Choose English, Hungarian, or Arabic on the login screen.
3. Enter username and password.
4. Press Sign In.

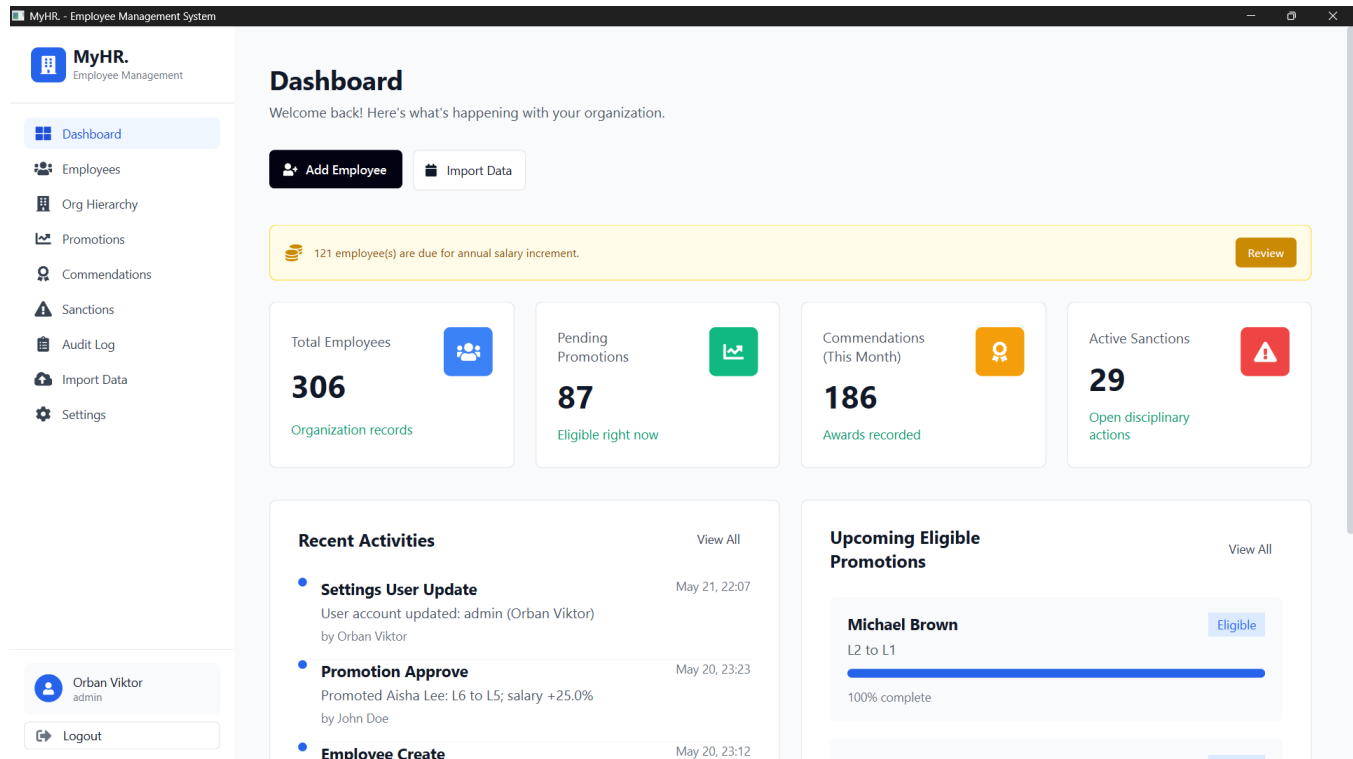

Default Account	Username	Password
Administrator	admin	admin123
HR Officer	hr_officer	hr123

- Use Logout at the bottom of the left sidebar to sign out and return to the login screen.
- Arabic uses right-to-left layout for the application session.
- Only application UI text is translated. Client-entered data, names, notes, emails, employee IDs, job titles, CSV headers, audit descriptions, and database values remain exactly as entered.

3. Dashboard

- Review total employees, pending promotions, active sanctions, commendations this month, recent activity, and upcoming promotions.
- Use Review in Salary Increments Due to approve one or all yearly salary increments.
- Approved increments update employee salary, create salary history, and write an audit log entry.

4. Employee Management

Add employees

5. Open Employees and press Add Employee.
6. Fill personal details, work details, degree, position, join date, base salary, status, org unit, and manager.
7. Choose BSc, MSc, PhD, or Other. BSc starts at L7, MSc at L6, PhD at L5, and Other uses the Other/Misc track.
8. Watch the live salary range warning. The record cannot be saved if salary is outside the admin-defined range.
9. Save the employee. MyHR generates an employee ID and logs the action.

Other or miscellaneous employees

- Use Other for janitors, guards, cleaners, painters, window cleaners, and similar roles.
- The displayed level is Other/Misc, not L7 to L1.
- They are assigned to the OTHERS branch and can report only to the OTHERS head, CEO, or a configured employee responsible for Other staff.
- They receive annual increments, but they do not have main level promotions, commendations, or sanctions.
- The demo database includes an Other Employees Head reporting to the CEO, plus janitor, cleaner, window cleaner, security guard, and painter examples.

View and edit employees

- Use search, filters, and Previous/Next pagination on the employee list. Search supports name, employee ID, position, and email.
- Open the profile with View. Personal Details shows the main race and sub-race immediately.
- Promotion History shows promotions and annual increment milestones as an audit-style history.
- Use Edit to update the employee. Use Delete only when a record was created by mistake because related employee history is removed too.

The screenshot shows the 'Employee Management' page in the MyHR system. The left sidebar contains navigation links: Dashboard, Employees (selected), Org Hierarchy, Promotions, Commendations, Sanctions, Audit Log, Import Data, and Settings. The main content area has a search bar with the text 'Search by name, ID, position, or email...', dropdowns for 'All Departments' and 'All Status', and an 'Add Employee' button. Below this, it says 'Showing 1-50 of 306 employees'. A table lists employees with columns: Employee ID, Name, Email, Department, Position, Level, Status, and Actions. The table shows 6 employees. At the bottom right, it says 'Page 1 of 7' with 'Previous' and 'Next' buttons.

Employee ID	Name	Email	Department	Position	Level	Status	Actions
EMP-0001	Muhammad Ibrahim Shoeb	ibrahimify@nexasoft.ex...	Executive Leadership Team	CEO	L1	Active	View Edit Delete
EMP-0002	Peter Nagy	peter.nagy.2@nexasoft...	Executive Leadership Team	CTO	L2	Active	View Edit Delete
EMP-0003	Sarah Johnson	sarah.johnson.3@nexas...	Executive Leadership Team	COO	L2	Active	View Edit Delete
EMP-0004	Michael Brown	michael.brown.4@nexas...	Executive Leadership Team	CFO	L2	Active	View Edit Delete
EMP-0005	Nora Szabo	nora.szabo.5@nexasoft...	Executive Leadership Team	CHRO	L2	Active	View Edit Delete
EMP-0006	Gabriel Hassan	gabriel.hassan.6@nexas...	Engineering	VP Engineering	L3	Active	View Edit Delete

The screenshot shows the 'Add New Employee' page in the MyHR system. The left sidebar is the same as the previous screenshot. The main content area has a 'Back to Employees' link and the title 'Add New Employee'. Below the title is the instruction 'Fill in the employee details to add them to the system'. The form is divided into three main sections: 'Personal Information', 'Education and Level Assignment', and 'Actions'. The 'Personal Information' section has fields for First Name, Last Name, Date of Birth, Personal Email, Phone, and Address. The 'Education and Level Assignment' section has a 'Degree' dropdown (set to BSc) and an 'Auto Level' button (set to L7). The 'Actions' section has 'Save' and 'Cancel' buttons. To the right of the form are two informational boxes: 'Level Assignment Rules' and 'Salary Guidelines'.

Level Assignment Rules

- PhD degree starts at L5
- MSc degree starts at L6
- BSc degree starts at L7
- Other/Misc employees stay on the Other track

Salary Guidelines

- L7: HUF 1,997 to 2,800
- L6: HUF 2,800 to 3,500
- L5: HUF 3,500 to 4,498
- L4: HUF 4,499 to 6,000
- L3: HUF 6,003 to 9,000
- L2: HUF 9,000 to 13,000
- L1: HUF 13,000 to 20,001

5. Organization Hierarchy

Type	Rule
Organization	Root only. Only one organization is allowed.
Division	Must be under an organization.
Department	Must be under a division.
Unit	Must be under a department.
Team	Must be under a unit.
Position	Must be under a team.
OTHERS	Special branch for Other/Misc employees.

- Use Add Unit or Add Department to create nodes.
- Unavailable unit types are disabled until their required parent exists.
- Assign a Head or In-Charge where needed.
- Click populated units or teams to view employees in that scope.

Position

NexaSoft Technologies organization

Head: CEO - Muhammad Ibrahim Shoeb 306 employees

Customer Success and Support division

Head: Director of Customer Success - Maya Patel 22 employees

Customer Success Department department

Head: Customer Success Manager - Mark Khan 11 employees

Account Management Unit unit

Head: Unassigned 10 employees

Customer Success Managers team

Head: Lead Specialist - Grace Patel 5 employees

6. Promotion Race and Sub-Race

The main race is the level movement, for example L7 to L6. The sub-race is the yearly checkpoint inside the race, for example L7.1 and L7.2.

Item	Meaning
Main race	Configured in Settings as level-to-level months, for example L7 to L6 in 36 months.
Sub-race	Yearly milestones inside the main race. Completed steps turn green in the profile UI.
Annual increment	Applied yearly at the employee's anniversary using the configured percentage or fixed amount.

Promotion increase	Applied on promotion using the next level's configured promotion salary increase.
Commendation	Reduces months remaining for standard employees.
Active sanction	Adds months remaining until resolved.

10. Open Promotions.

11. Review eligible employees and soon-eligible employees.

12. Press Approve for an eligible employee.

13. Confirm the salary and level change.

14. MyHR updates the employee, creates promotion history, and writes the audit log.

- The Promotion History tab is paginated so long-running organizations can review history without loading every row into the table at once.

The screenshot displays the MyHR Employee Management System interface. On the left is a sidebar with navigation links: Dashboard, Employees (selected), Org Hierarchy, Promotions, Commendations, Sanctions, Audit Log, Import Data, and Settings. The main content area shows the profile of Jonas Kovacs, a Team Lead. The profile includes a 'Back to Employees' link, a profile picture with initials 'JK', and status 'Active' and 'L5'. Contact information includes email 'jonas.kovacs.46@nexasoft.example', phone '+36 20 346 446', location 'Budapest', and join date '2021-10-06'. Below this is a tabbed interface with 'Personal Details' selected, showing 'Current Promotion Rate' (L5 to L4) with a progress bar indicating '39 months remaining' until '2029-08-05'. A 'Sub-Race' section shows a table of salary increases for levels L5.1 through L4. At the bottom, there are sections for 'Employment Information' (Employee ID: EMP-0046, Department: iOS Team) and 'Personal Information (Admin Only)' (Full Name: Jonas Kovacs, Personal Email: [redacted]). A user profile for 'Orban Viktor admin' is visible in the bottom left corner with a 'Logout' button.

7. Commendations

- Open Commendations and choose Issue Commendation.
- Choose Single Employee or Team Award.
- Choose Category 1 (-1 month), Category 2 (-3 months), or Category 3 (-6 months).
- Each standard employee can receive up to three commendations in the current role.
- Team awards skip employees who already reached the limit.

Commendations reduce months on the promotion race track

Category 1 (-1 month)

Good performance recognition

-1 month(s)

Category 2 (-3 months)

Excellent achievement

-3 month(s)

Category 3 (-6 months)

Outstanding / exceptional work

-6 month(s)

8. Sanctions

- Open Sanctions and choose Issue Sanction.
- Select employee, sanction type, reason, and delay from 1 to 12 months.
- Active sanctions delay the promotion race.
- Use Active Sanctions to mark a sanction resolved. Resolved sanctions stay in history but stop adding active delay.

Promotion Race Impact

Sanctions delay the promotion race by adding months to the timeline

The employee must wait longer before becoming eligible for promotion

Duration range: 1-12 months

Each sanction receives a unique auto-generated ID

Important Notes

All sanctions are recorded in the audit log

Employee will be notified of the sanction

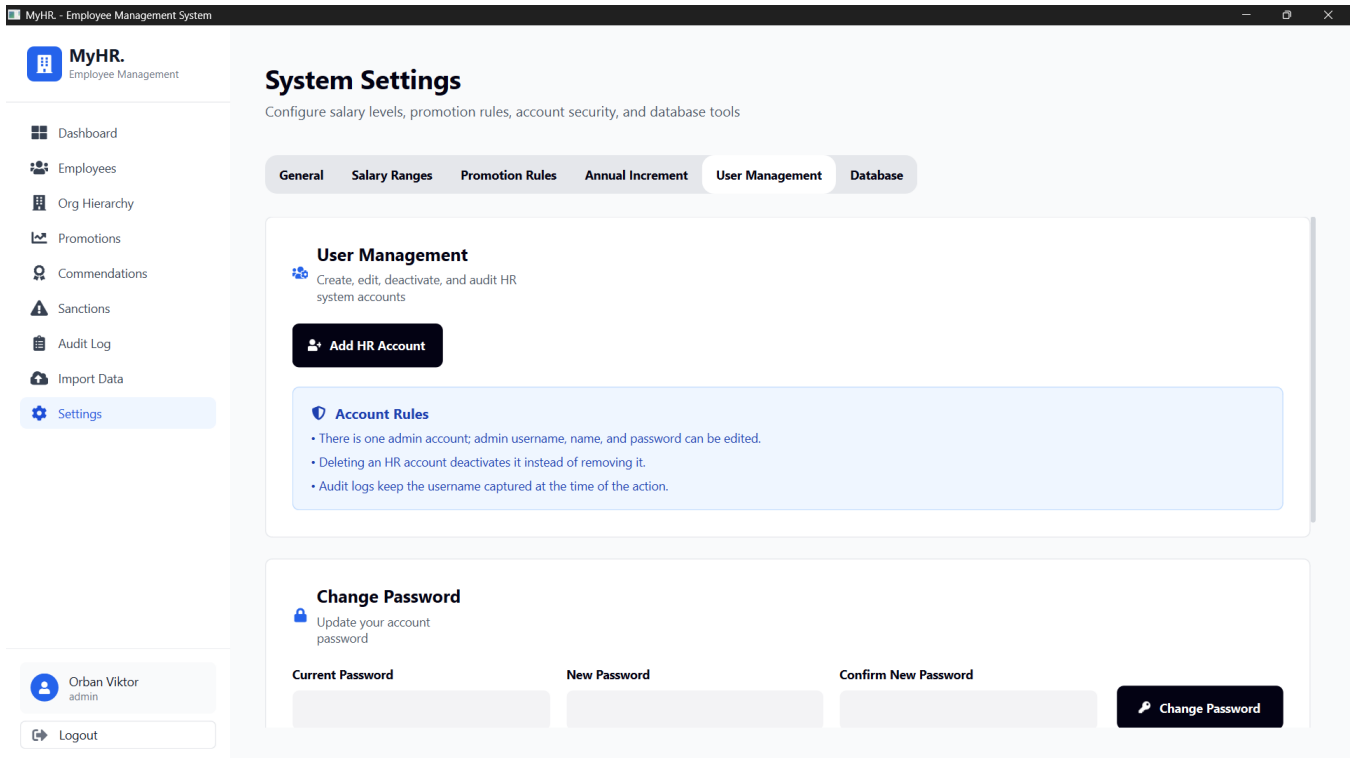

9. Import, Export, and Backup

- Import Data accepts CSV and XLSX files.
- Required headers are first_name, last_name, department, degree, position, join_date, and base_salary.
- Optional headers include division, unit, team, work_email, work_phone, personal_email, phone, address, status, manager_work_email, commendation_months, active_sanction_months, and sanction_type.
- The preview marks valid rows and rows needing review before anything is written.
- Admin can export employees and create a SQLite database backup from Settings > Database.

The screenshot shows the 'Import Employee Data' page in the MyHR system. The interface includes a sidebar with navigation links: Dashboard, Employees, Org Hierarchy, Promotions, Commendations, Sanctions, Audit Log, Import Data (highlighted), and Settings. The main content area has a progress bar with three steps: 1. Upload File (active), 2. Validate Data, and 3. Complete. Below the progress bar, there's a large box for uploading a file, titled 'Upload Employee Data File'. It states 'Supported formats: CSV, XLSX' and has a 'Choose File' button. Below this, a file named 'demo_import_10_employees.xlsx' is listed. A 'Download Template File' button is also present. To the right of the upload box, there's a 'Required Columns' section listing: First Name, Last Name, Department, Degree (BSc, MSc, PhD, Other), Position, Join Date, and Base Salary. Below that is a 'Data Cleaning Guide' section with instructions: Remove duplicate rows before import, Validate work emails when provided, Use standard department and team names, Dates must use YYYY-MM-DD format, Commendation months: 0, 1, 3, or 6, and Sanction months: 1-12. At the bottom, a 'Validation Results' section shows three boxes: 'Total Rows' with a value of 10, 'Valid Rows' with a value of 10, and 'Needs Fix' with a value of 0. The user profile 'Orban Viktor admin' and a 'Logout' button are visible in the bottom left corner.

10. User Management and Audit

- Admin uses Settings > User Management to change password and manage system users.
- The admin account can be edited for handover.
- HR Officer accounts can be created, edited, deactivated, and reactivated.
- Deactivation is a soft delete: the HR account cannot log in, but the record remains for audit history.
- Audit Log shows user identity as username: full name, for example admin: John Doe.
- Past audit entries keep their original username and full-name snapshot even if the account changes later.

11. Working With Larger Data Sets

- Employee lists are paginated. Use Previous and Next instead of expecting every employee to appear on one long page.
- Promotion History is also paginated because annual increments and promotions can create many records over time.
- Dashboard and promotion eligibility are calculated live from the database using optimized list queries.
- If the application feels slow, check whether a very large export, import, or backup is running at the same time.
