Administrative records
(employee histories, policy versions)
Deterministic checks
(invariant contradictions; policy rules)
finding
no invariant finding
Evidence-rich findings
(rule, source events, calculation)
Isolation Forest score on matched
raw or policy-aware features
Top-k histories within a fixed
additional review budget
Review queue
(recommendations only)
Authorized human reviewer
inspects rule, evidence, score
Any personnel action only via
the audited application workflow
Human-review boundary: scores never trigger automatic
personnel decisions, record edits or record merges
